PURPOSE: The purpose of this certificate is to give both the aspiring and professional multimedia artist the core experience in contemporary multimedia design and creation. This certificate allows the practicing multimedia artist to further develop and explore new applications of the multimedia design and artistic development with respect to the ever-evolving field of multimedia, animations, and interactivity.

This certificate is also a great access point to begin the Associate of Science (Two-Year) Digital Arts Degree, with the potential of transferring to a four-year institution.

Implemented: Fall 2005
