

COMMON COURSE OUTLINE: Course discipline/number/title: ART 1193: Art Workshop

A. CATALOG DESCRIPTION

1. Credits: 3
2. Hours/Week: 6
3. Prerequisites (Course discipline/number): None
4. Co-requisites (Course discipline/number): None
5. MnTC Goals (if any): NA

This course is an Art Studio course in specific or combined areas of art that address particular needs, situations or opportunities. These classes give students the opportunity to work on original problems that require creative thinking and critical decision-making. This course will cover the history of the Studio Art area.

B. DATE LAST REVISED (Month, year): February, 2011

C. OUTLINE OF MAJOR CONTENT AREAS:

Art Workshop courses must have common course outlines approved by AASC.

Typical studio course areas include:

1. Background of special topic covered
2. Safe studio practice
3. Project based exploration of topic
4. Special topic art history and contemporary context
5. Slide and video presentations
6. Presentation of work
7. Critical response

D. LEARNING OUTCOMES (GENERAL): The student will be able to:

1. Work safely with a variety of tools and materials.
2. Learn materials and methods specific to topic.
3. Incorporate basic design principles in their work.
4. Creatively solve design problems while demonstrating an awareness of historical and cultural precedent.
5. Strive for individual expression while developing their ability with the media.
6. Critically evaluate work throughout the creative process.
7. Articulate an informed personal reaction during group critiques and through writing on art.

E. LEARNING OUTCOMES (MNTC): NA

F. METHODS FOR EVALUATION OF STUDENT LEARNING:

1. Exams and Quizzes
2. Presentations
3. Projects
4. Written Assignments

G. SPECIAL INFORMATION (if any):

The initial lab session explains and familiarizes the student with general safety hazards and safety equipment in the lab. During the pre-lab discussion, the hazardous characteristics of the chemicals used during the lab are discussed. The students will be instructed on the proper disposal of any hazardous products. The instructor will direct all students to wear necessary protective equipment while working with the chemicals. A copy of Material Safety Data Sheets for chemicals used is available in the lab.

This course aligns with the following RCTC Core Outcomes:

1. Critical Thinking
2. Aesthetic Response
