2)				

SIGNATURE REQUIRED

All of the information provided is true and complete to the best of my knowledge.

Signature _____ Date _____

Remember to have your *final* high school transcript released to RCTC after you have graduated from high school. Thank you!

The **Associate in Arts (AA) and Associate in Fine Arts (AFA)** degree is designed for students who plan to transfer to a university to earn a baccalaureate (4 year) degree. The coursework consists of 64 credits in written and oral communication, humanities and fine arts, history and social sciences, mathematics and natural sciences, health and physical education, and electives from a variety of disciplines. Students who earn this degree are guaranteed to have all general education requirements completed at any public university in Minnesota. This liberal arts curriculum is widely accepted in transfer in any state and for nearly every degree major at a university. The AA is a two-year degree.

The **Associate in Science (AS)** degree is offered for students who may transfer to a university in a select major; or for those pursuing select professions that require an associate degree and licensure. The 64- credit degree is similar to the AA degree liberal arts coursework but requires at least 34 credits of coursework to be taken in a subject of the desired major. The AS is a two-year degree.

Associate in Applied Science (AAS) degrees are designed for students planning to enter the workforce upon completion. The AAS degree combines 20 credits of liberal arts/general education coursework with at least 44 credits of major-specific courses. The AAS is a two-year degree ranging from 60-72 credits.

The **diploma and certificate (Dipl, Cert)** awards are designed to provide students with the skills necessary to enter the workforce upon completion. Diplomas and Certificates are awarded for vocational/technical training programs and require very little, if any, liberal arts courses. Diploma programs range from 30 to 64 credits (one or two years). Certificate programs range from 10 to 30 credits (one year or less).

2+2 majors indicate that RCTC has an articulated agreement with Winona State University or the University of Minnesota that allows the student to complete a baccalaureate degree on the UCR campus. The student will follow the prescribed coursework to complete an associate degree from RCTC and a bachelor's degree from WSU or UM in Rochester.

Liberal Arts Transfer Majors

Liberal Arts and Sciences - AA
 Undeclared* - AA
 *not sure which major, but pursuing a 4-year degree

Below is a partial list of 4-year degrees students can begin at RCTC:
