TOTAL60 CREDITS

PROGRAM OUTCOMES:

Upon completion of the Engineering Broad Field program at RCTC, students will achieve the following core competencies:

- Apply algebra, trigonometry, and calculus to solve the equations generated by • engineering problems.
- Apply basic physics principles such as force and energy to the analysis of practical engineering situations.
- Solve a problem by creating an appropriate diagram, identifying the essential physical variables, using physics principles to formulate equations, solving for the desired quantities, and thinking critically about the answers and whether they are reasonable.
- Write scientific reports detailing experimental procedures, results, and conclusions.
- Exhibit the ability to work collaboratively to achieve a common goal.

ADDITIONAL NOTES:

This degree, as part of the Engineering Broad Field agreement, has an articulation agreement with Minnesota State University, Mankato; St. Cloud University; Winona State University; University of Minnesota; University of Minnesota, Duluth and any System college approved to offer the Associate of Science in Engineering Broad Field degree program.

MORE INFORMATION REQUIREMENTS:

Note that:

- Completion of the Associate of Science in Engineering Broad Field degree does not guarantee admission to a baccalaureate degree program.
 - Students must meet university requirements and degree program admission 0 requirements.
 - Baccalaureate engineering degree programs may have limited enrollment capacity 0 with seats available on a competitive basis.
- Students accepted into a university must fulfill the baccalaureate program graduation requirements.

Revised: 11/13/2018 Implementation: Spring 2019
