PROGRAM OUTCOMES:
Upon completion of the Surgical Technology program at RCTC, students will achieve the following outcomes:

• Define and relate the principles underlying the profession of surgical technology,
  including anatomy and pathophysiology of the human body, microbiology, pharmacology,
  and operating room skills, techniques, instrumentation, equipment and supplies.
• Demonstrate knowledge and application of the principles of aseptic technique and basic
  case preparation skills primarily in the sterile role.
• Demonstrate practical skills required to work as a competent surgical technologist in the
  preoperative, intraoperative, and postoperative phases of surgical case management.
RCTC PROGRAM PLAN

- Apply critical thinking skills for appropriate and safe care of the patient in the operating room.
- Demonstrate the role of a surgical technologist as part of an operating room team providing comprehensive care for patients.
- Demonstrate the practice according to the ethical principles and legal requirements of the profession of surgical technology.
- Demonstrate appropriate and professional skills of interpersonal communication with all patients and other members of the health care team.

NOTICE OF BACKGROUND STUDIES:
Minnesota Statute 245C requires that students who have contact with individuals in licensed institutions complete an annual background study with the Minnesota Department of Human Services. Individuals who do not pass the background study will not be allowed to participate in clinical activities. A list of disqualifying offenses is available at https://www.revisor.mn.gov/statutes/?id=245C.15. Students in the program will also be required to complete a national criminal background study. Information about completing both background studies will be available from program faculty.
