

ALCOHOL & DRUG COUNSELING CERTIFICATE

Purpose: The Alcohol and Drug Counseling Certificate prepares graduates for licensure with the Minnesota Board of Behavioral Health & Therapy (MNBBHT) as a Temporary Alcohol and Drug Counselor (ADC-T) or Licensed Alcohol and Drug counselors (LADC). The Alcohol and Drug Counseling Certificate is designed for students who have an associate degree (or higher), want to learn more about chemical dependency issues, and who desire a career working with chemically dependent people. Students in this program, will gain valuable classroom knowledge in 12 core areas of addiction counseling theory, practice, and skill development. Through the required practicum placements in a licensed chemical dependency facility student’s gain valuable and necessary practical experience under the supervision of a Licensed Alcohol & Drug Counselor or other qualified professional.

The Alcohol and Drug Counseling Certificate does not license a student as an alcohol and drug counselor. However, students who complete the Alcohol and Drug Counseling Certificate and have already completed an associate degree can apply for licensure as a temporary drug counselor (ADC-T) through the Minnesota Board of Behavioral Health Therapy (MNBBHT). If the licensing board approves your application as a temporary drug counselor, students can work as a temporary drug counselor for roughly 6 years (or 5 annual renewal periods) while they complete a bachelor’s degree. Students who complete the Alcohol and Drug Counseling Certificate and hold a bachelor’s degree (or higher) and pass the national exam can apply for a drug counseling license (LADC) through the licensing board (MNBBHT).

Award

Alcohol & Drug Counseling Certificate.....26 credits total
Program Requirements 26 credits

RECOMMENDED FULL-TIME COURSE SEQUENCE (Fall Start)
