## CLINICAL NEUROPHYSIOLOGY TECHNOLOGY AAS

Purpose: RCTC's Clinical Neurophysiology Technology (CNT) program trains students to perform a variety of testing, such as EEG, NCS, PSG, evoked potentials and autonomic testing, to assist physicians in the diagnosis and evaluation of diseases of the brain, peripheral and autonomic nervous systems, and disorders of sleep. Graduates are eligible to take professional certification examinations given by Neurodiagnostic Credentialing and Accreditation (ABRET), The Nerve Conduction Association (AAET), American Board of Electrodiagnostic Medicine (ABEM)) and the Board of Registered Polysomnographic Technologists (BRPT)

## **Award**

Clinical Neurophysiology Technology A.A.S. Degree	81 credits total
Clinical Neurophysiology Technology curriculum	56 credits
MnTC curriculum/General Education	25 credits
