

HEALTHCARE INFORMATICS DIPLOMA

Purpose: Health Information Technicians analyze, secure, and maintain patient health information. Other duties include coding diagnoses, processing reimbursements, managing release of information, and protecting patient data privacy. Upon successfully completing RCTC's online Health Information Technology (HIT) program, you are eligible to take the national exam sponsored by the American Health Information Management Association (AHIMA) and earn the Registered Health Information Technician (RHIT) credential.

Healthcare Informatics is a multidisciplinary field which involves information technology and the management of health data and information. These professionals assist in the building and enhancement of electronic health record systems for use by healthcare providers and healthcare organizations to improve access to, and utilization of, health information.

Award

Healthcare Informatics Diploma.....33 credits total
 Healthcare Informatics curriculum.....33 credits

***This program is available fully on-line.**

RECOMMENDED FULL-TIME COURSE SEQUENCE
