

MUSIC CREATIVE TECHNOLOGIES AFA

Purpose: The Music Creative Technologies program is designed to prepare students as music technology artists in the areas of sound engineering, music production, composition, and related new media such as video and lighting. The degree programs consist of a liberal art core and offer programs of study in integrated music technology and new media. This program allows students to focus on music technology and provide the first two years of experience for transfer to any music institution for careers in the fields mentioned above.

Award

Music Creative Technologies A.F.A. Degree 60 credits total
 Music curriculum 44 credits
 MnTC curriculum/General Education 16 credits
