

Mayo Clinic Clear Approach

When you have questions about your FAA medical, we offer expert and confidential answers.

Mayo Clinic Clear Approach to Medical Certification is an interactive website providing RCTC students with resources to make informed decisions about pilot health and FAA flight medical certification. With over 80 years of experience in Aerospace Medicine, our team of Senior Aviation Medical Examiners will respond quickly, accurately, and confidentially, because your pilot medical isn't just a piece of paper; it's your wings.

We're here to help. Ask us about:

A specific medical diagnosis

We will explain how your diagnosis could affect your medical certification, what testing will be required by the FAA, and how we would approach the case.

Your medications

We can address whether a medication is disqualifying, offer possible alternatives and what action may be required to have it considered for special issuance.

Understanding your FAA letter

We can provide a clear interpretation of your FAA medical correspondence and what next steps are required for your specific case.
